

COMMUNITY FLASKS

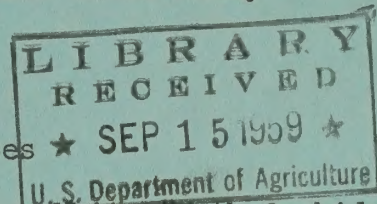

If you haven't yet tried the Community FLASK (skip-community pot) method of growing your seedlings until ready to go straight into 2-inch pots -- stop now and read newly revised articles W thru Z!

Then choose from the following fine new hybrids the COMMUNITY FLASKS (40 seedlings in each) that appeal most to you or best fit your Orchid growing plans.

Don't forget, safe delivery anywhere in U.S.A. guaranteed, and the seedlings require no care while you watch them grow in their glass bottles until ready for individual pots.

GROUP NUMBER ONE

Phalaenopsis, Bifoliate, Novelty Crosses

- #Ph-34 PHAL. GRACE PALM X DORIS X BLIZZARD - Vigorous, large white "Moth Orchids."
- #Ph-39 PHAL. MARMOUSET X GRACE PALM - Similar to famous pink "Clara Knight" but averaging larger than most; some lighter pink.
- #Ph-45 PHAL. PASADENA (Grace Palm var. Debbie X Margaret Bean) - This extra fine white hybrid outgrows all others; probably tetraploid; should be heavy and round.
- #50 C. CHLOE (Bicolor X Bowringiana, Brilliant) - Clusters, bronze to rich purple.
- #53 C. BOWRINGIANA X C. IRIS - Larger flowers than in #50; similar colors.
- #107 C. MAXIMA X B. GLAUCA - Pink novelty Bc's in clusters; Maxima red stripes in broad lips. Should be twice yearly, Spring, Fall.
- #116 C. GENERAL PATTON X LOUISE GEORGIANA - Clusters heavy, well rounded pure white flowers, five to six inches. Summer or twice yearly.
- #125 LC GOLDEN GATE X C. FORBESII - Rich yellow clusters; late Summer, Fall.
- #158 C. HENRIETTA JAPHET X LC KAHILI KAI - Dainty pure white flowers in spray form. Lovely for use in Wedding work. Spring or twice yearly.
- #157 SCHOMBURGKIA UNDULATA X C. CATHERINE PATTERSON - Bigeneric novelty for heads of buff colored, wavy-petal flowers with purple lips. Winter-Spring.
- #194 BC DAFFODIL (B. GLAUCA X C. AURANTIACA) - Bright yellow (no other color) Bc novelty; long lasting blooms. Feb. March.
- #216 C. FORBESII AUREA X C. PITTIANA, SHAMROCK - This cross is named Source D'Or but in this case the hope is for the "gold" to be GREEN gold. Should bloom twice yearly, Spring, Fall.
- #221 C. ELLA MAE SUTTON X L. XANTHINA - Spray type yellows expected.
- #223 B. NODOSA X C. GUTTATA, LEOPOLDII - Novelty Bc, some with spade lips.
- #229 C. UNDINE X B. GLAUCA - Small, heavy white novelty cross. Late Winter.
- #244 C. AURANTIACA X LC CHARLESWORTHII - Clusters orange to tomato red. Spring.
- #246 LC ISSY X C. IRIS, DOTTY'S PRIDE - Waxy bronze to chocolate brown to red-cheeked orange clusters. Autumn.
- #251 C. RED MAPLE, POLISHED RUBY X C. IRIS, DOTTY'S PRIDE - Rich, heavy, dark red bifoliate clusters; very vigorous. Fall or twice yearly.
- #307 EPI. PAPLIOLACEA X C. FORBESII - Yellow to buff Epi-Catt. cross; pink lips; some with Forbesii markings.
- #883 C. WHITE CHRISTMAS X L. FLAVA - Heavy, star-shaped cream to yellow sprays.

COMMUNITY FLASKS, CONT'D.

GROUP NUMBER TWO

Large, showy Cattleya types; White, Lavender, Purple.

#224 C. WHITE BELLS X BOW BELLS - Bow Bells type heavy, large, well rounded White. Early Summer or twice yearly.

#233. C. RUTH WELKIND (Charlotte Jones X Bow Bells) - Re-make of a cross we named for a doctor friend's wife. Some so vigorous they are obviously polyploids. All should be good, large, showy Whites. Spring or twice yearly.

#874 C. MARGARET PURCELL X SLC CARLA CARTER - Copper-brushed rose-lavender blooms with huge, open red-purple lips expected. Winter or twice yearly.

#889 C. BARBARA BILLINGLEY X BLC CAROLS, 'SNOW WHITE' - Fine, big "brasso-type" Whites expected. Winter, or twice yearly.

#895 LC GWEN SANDER X LC TWINKLE STAR - Dark red-lavenders; some with darker purple "lipstick" at petal tips to match rich, solid royal velvet lip and throat, Fall, Winter.

#910 LC PURCAD, 'LIPSTICK' X HELEN WILMER, 'VICTORY' - Should produce fine, large, dark blooms with full, vividly dark purple lips; some "lipstick" petal tips. Tetraploid Helen Wilmer always fosters vigorous seedlings. Winter; Summer.

#933 POTINARA ANISE X BLC SARACEN - Handsome, showy dark red-purple. Winter or varied.

Group Two Prices

SINGLE COMMUNITY FLASK (Your Choice from Group Two).....\$15.00
 ANY TWO COMMUNITY FLASKS " " " " " 25.00
 THREE OR MORE " " " " " \$10.00 per flask
 SHIPMENT BY RAIL EXPRESS (charges coll.) or, if boarded here, via Air Mail in bare root, out-of-flask form when ready for individual pots. (See Article X.)

GROUP NUMBER THREEHYBRIDS MADE WITH THE UNUSUAL COLOR AIM

#10 B. DIGBYANA X C. DOWIANA AUREA - This remake of Bc Mrs. J. Leeman was with unusually fine parents: greenish, very frilled and fringed - including petals - Digbyana and extra strong Dowiana Aurea. Result should be fine chartreuse brasso.

#235 C. HYBRIDA X SLC ANZAC, F.C.C. - The famous SLC ANZAC on the reddest Hybrida I've ever seen should produce many fine, heavy, long lasting RED blooms in clusters.

#877 C. LEDA VAR MIDNIGHT X LC GOLDEN CHARM - A Leda so dark it has been mistaken for a Potinara received pollen from brilliant orange-yellow Golden Charm - a combination that is known to foster many strong REDS. Twice yearly, Winter, Summer.

#886 POTINARA RED FRIAR, 'CORAL QUEEN' X LC TWINKLE STAR - The burnt orange RED Potinara Red Friar on our color postcard was pollinated by wine red Twinkle Star. Whatever the results, I don't see how they can miss being vividly DIFFERENT.

#918 LC SUNRISE PEAK X C. IRIS, BRONZE KING - Shining bronze tones were the aim here, with multiple blooms and heavy substance fostered by Iris. Could be twice yearly, Winter, Summer.

#935 C. IRIS, COPPER QUEEN X SLC CARLA CARTER - Both parents were as copper colored as a new penny, with glowing raspberry red lips and throats. Fall or twice yearly.

GROUP NUMBER THREE PRICES

SINGLE COMMUNITY FLASK (Your Choice from Group Three).....\$30.00
 ANY TWO COMMUNITY FLASKS " " " " " 55.00
 THREE OR MORE " " " " " " \$25.00 per flask.

SHIPMENT BY RAIL EXPRESS (charges coll.) Or, if boarded here, via Air Mail in bare root form, out-of-flask, when ready for individual pots. (See Article X)
